Pathophysiology of Blood Disorders

H. Franklin Bunn, MD
Professor of Medicine
Harvard Medical School
Hematology Division
Brigham and Women's Hospital
Boston, Massachusetts

Jon C. Aster, MD, PhD
Professor, Department of Pathology
Harvard Medical School
Staff Pathologist,
Department of Pathology
Brigham and Women's Hospital
Boston, Massachusetts
Contents

Contributors vii | Preface ix

1. Introduction to Blood and Hematopoietic Tissues
   Jon C. Aster 1

2. Hematopoiesis
   David Scadden and Jon C. Aster 14

PART I
ANEMIA AND RED CELL DISORDERS 29

3. Overview of the Anemias
   H. Franklin Bunn 30

4. Anemias Due to Bone Marrow Failure or Infiltration
   H. Franklin Bunn 42

5. Iron Homeostasis: Deficiency and Overload
   H. Franklin Bunn and Matthew M. Heeney 51

6. Megaloblastic Anemias
   H. Franklin Bunn and Matthew Heeney 63

7. Anemias Associated With Chronic Illness
   H. Franklin Bunn 75

8. Thalassemia
   H. Franklin Bunn and David G. Nathan 81

9. Sickle Cell Disease
   H. Franklin Bunn 95

10. Hemolytic Disorders of the Red Cell Membrane and Red Cell Metabolism
    H. Franklin Bunn and Samuel E. Lux 110

11. Acquired Hemolytic Anemias
    H. Franklin Bunn 122

12. Erythrocytosis
    H. Franklin Bunn 133

PART II
HEMOSTASIS AND THROMBOSIS 141

13. Overview of Hemostasis
    H. Franklin Bunn and Bruce Furie 142

14. Platelet Disorders
    H. Franklin Bunn and Bruce Furie 157

15. Inherited Coagulation Disorders
    H. Franklin Bunn and Bruce Furie 170

16. Acquired Coagulation Disorders
    H. Franklin Bunn and Bruce Furie 179

17. Thrombotic Disorders
    H. Franklin Bunn and Kenneth A. Bauer 188

PART III
WHITE BLOOD CELL DISORDERS 199

18. Leukocyte Function and Non-malignant Leukocyte Disorders
    Jon C. Aster and Nancy Berliner 200

19. Introduction to Hematologic Malignancies
    Jon C. Aster and Mark Fleming 216

20. Myeloproliferative Disorders and Myelodysplastic Syndromes
    Jon C. Aster and Daniel J. DeAngelo 229

21. Acute Leukemias
    Jon C. Aster and Daniel J. DeAngelo 244

22. Non-Hodgkin Lymphomas and Chronic Lymphocytic Leukemias
    Jon C. Aster and Arnold Freedman 260
PART IV
TRANSFUSION MEDICINE 301

25. Blood Transfusion
   H. Franklin Bunn and Richard Kaufman 302

26. Hematopoietic Stem Cell Transplantation
   Jon C. Aster and Joseph H. Antin 314
